

Quick Start Guide

FOR Portfolio Managers, Traders, Analysts, and Salespersons

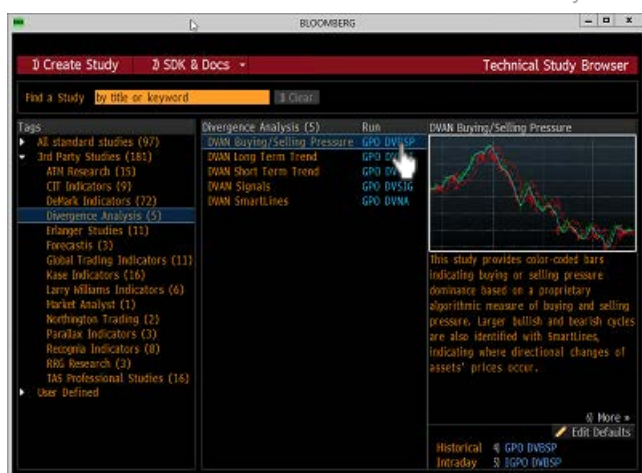

Bloomberg®

Get Started with DVAN SmartLines Trading System App

TYPE APPS CS: DVAN GO on your Bloomberg Terminal® to run app.

Step 1) Click 11) Run App

A Bloomberg child window will be created and the 5 charting studies included in the app will appear in the middle panel. Select one of the 5 studies and click in the middle panel under the Run column to create a chart with this study.

Step 3) Save the chart for future use

Click the Actions tab on your chart, then click Save As... Type "DVAN" in the Title box. Click Save.

Note: this saves your chart with DVAN studies for future access.

Step 2) Add the additional DVAN studies

To add or remove studies to the same chart, click the Chart Content tab. Type "DVAN" into the search box to see all DVAN studies or type in as listed below for a specific study:

DVBSP DVAN Buying/Selling Pressure

DVNA DVAN SmartLines

DVLT DVAN Long Term Trend

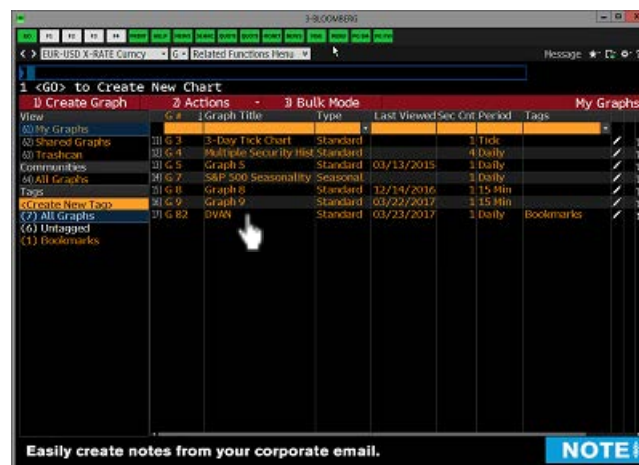

DVST DVAN Short Term Trend

DVSI DVAN Signals

Step 4) Access the saved chart

For future use, your saved DVAN studies chart will now be located in your G-chart library Type G <GO> on your terminal to access day-to-day. The chart will be named "DVAN."

Easily create notes from your corporate email.

NOTE

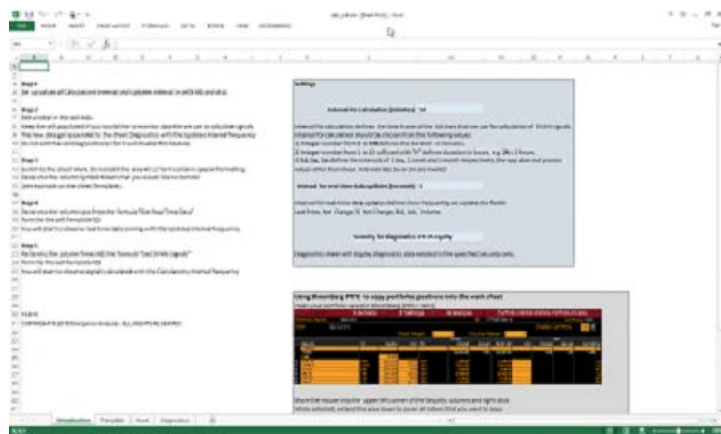

Get Started with DVAN SmartLines Portfolio Monitor

(Users with free trial access or a subscription to DVAN SmartLines Trading System App receive free access to DVAN SmartLines Portfolio Monitor)

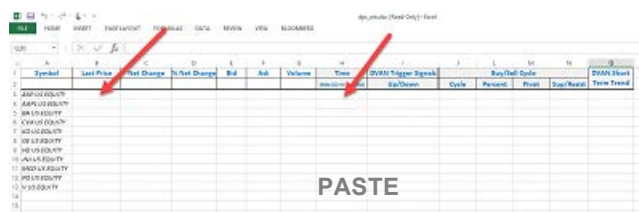

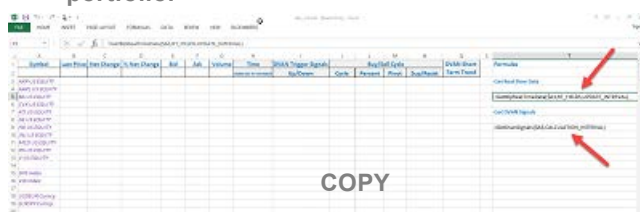

TYPE APPS DVAN **GO** on your Bloomberg Terminal® to run app.

1) Click "Run App". A separate excel window will be created on your desktop.

Follow Steps 1-5 on the Introduction page to set up the spreadsheet for monitoring your portfolio/watchlist.

Note on Step 4 & 5: Copy the formulas on Template page in cells T5 & T9 and paste on the Work page in cells B3 & H3, respectively. Once pasted into the Work page, drag each formula down to fill data for portfolio.

The portfolio monitor on the Work page with your portfolio/watchlist and formulas loaded will look similar to below. Save this spreadsheet on your workstation for future use.
